Information Systems graduate from Universitas Pembangunan Nasional "Veteran" Jakarta with a GPA of 3.86/4.00. Experienced in translating business requirements into relational database architectures and developing web-based management information systems. With hands-on experience in backend development, database design, and business process analysis.

WORK EXPERIENCE

PPM Manajemen — IT Business Partner Intern March 2025 – July 2025 | Jakarta, Indonesia

- Analyzed existing systems and data to separate proactive (Pre-Add/Proposal) and responsive (Standard/Tender) workflows, translating them into relational database architectures.
- Built modules for Pre-Add, Standard Sales, Tender, Client Companies, Competitors, and Dashboard in a local environment (localhost).
- Developed the frontend and backend using the MVC (Model-View-Controller) architecture with PHP, CodeIgniter 3, MySQL, Bootstrap, HTML, CSS, and JavaScript (AJAX, jQuery).
- Implemented backend business logic, including automatic document numbering to prevent data duplication (race condition) using an atomic counter.

EDUCATION

Universitas Pembangunan Nasional Veteran Jakarta - **DKI Jakarta, Indonesia**

Bachelor's Degree in Information Systems Aug 2022 – Sep 2026

- Final GPA: 3.86/4.00

Undergraduate thesis completed; Graduated in September 2026.

Undergraduate Thesis:

Development of a Web-Based Sales Management Information System for Training and Management Education

SELECTED PROJECTS

Indonesia Earthquake Data Analysis — Academic Project November 2024 – December 2024

- Analyzed Indonesian earthquake data from 2008 to 2023 based on magnitude, depth, region, and time period.
- Performed data cleaning, transformation, and categorization using Pentaho Data Integration.
- Developed Power BI visualizations to identify earthquake trends, patterns, and high-risk regions.

IKEA Website Redesign — Academic Project November 2024 – December 2024

- Evaluated the usability of the IKEA e-commerce website using user feedback and the System Usability Scale (SUS).
- Designed website mockups and interactive prototypes using Figma.
- Proposed improvements to search, navigation, filtering, sorting, and visual elements to improve the user experience.
